I. Eligibility for Promotion

Faculty members whose qualifications meet or exceed the requirements for higher academic rank shall be eligible for promotional consideration to that rank. Faculty on sabbatical are eligible to apply for promotion, subject to the same requirements of all faculty.

II. Qualifications for Rank (NJAC 9:6-3.5, as revised effective 5/85)

B. Assistant Professor

An earned doctorate or other appropriate terminal degree or its equivalent from an accredited institution in an appropriate field of study or completion of all requirements for the doctorate in an accredited institution except for the dissertation. For persons hired after January 1, 1986 who do not hold the appropriate terminal degree or its equivalent, no reappointment shall be made to the fourth year unless the Board of Trustees of the University determines that for rare and exceptional reasons reappointment is necessary to support the mission of the University.

The requirement of an earned doctorate or other appropriate terminal degree or its equivalent for promotion to the rank of Assistant Professor shall not apply to faculty members employed in the University prior to February 22, 1974.

C. Associate Professor

An earned doctorate or other appropriate terminal degree from an accredited institution in an appropriate field of study and five years of professional experience. Evidence of excellence in teaching, scholarly achievement and service beyond the level of accomplishment of those holding the assistant professor rank.

ST 9/12/1
ABD 9/12/14

Equivalency

The Board recognizes that in exceptional cases individuals may present qualifications as to education and experience that their faculty peers will recommend to be the equivalent of the above qualifications although not corresponding to the letter. In such cases, the Board of Trustees may, upon recommendation of the President, appoint such individuals to the rank deemed appropriate.

In special fields in which the doctorate may not be the usual terminal degree, including, but not limited to, art, music, nursing, library science and librarianship, significant training and/or other professional experience or achievement appropriate to the field of specialization shall be determined equivalent to additional graduate work beyond the Master's degree.

Those who, in the judgment of and as substantiated by their professional peers within the institution possess exceptional qualifications, achievements, or experience deemed equivalent to the academic requirements outlined above, may be recommended for appointment or promotion to a given rank.

All decisions on equivalency promotions or appointments shall be made at the campus level.

Faculty peer is defined as a tenured Instructor, Assistant Professor, Associate Professor, and/or full Professor in the appropriate department, including department chairperson, whether or not he or she is tenured. Those departments which regard the procedure as feasible and professionally preferable may determine that faculty peer in the instances of decisions as to promotions shall consist of only those tenured faculty members at a rank equal to or higher than the rank to which a faculty member is being considered for promotion. Professional personnel with dual appointments whose responsibilities include duties classified as managerial are not faculty peers.

Limitations for Professorial Classification (formerly NJAC 9:6-3.7)

Limitations for professorial classification by academic rank shall be regulated in accordance with the applicable provisions established by the Board of Trustees.

III. Criteria for Promotion

Decisions about promotion shall be governed by four broad and interrelated factors:

- A. Effective teaching
- B. Scholarly achievement and/or creative achievements
- C. Contribution to University and community
- D. Fulfillment of professional responsibilities

Although no set weighing scheme is suggested, in the case of the teaching staff, proficiency in teaching shall be considered essential.

IV. Department Promotion Committee

- A. Composition of the Committee

JT 9/12/06
KBD 9/12/06

The department promotion committee is an elected committee of at least three tenured faculty members, with the exception of the department chairperson who shall be a member ex officio whether or not tenured. This committee may be the department council. In the event that a department has fewer than three tenured members, the department will recommend a promotion committee to the Faculty Senate to be voted upon for its acceptance.

In any given academic year, candidates for promotion may not serve on either the Department or University Promotion Committee.

B. Applications for Promotion

A faculty member may make written application to the department promotion committee for promotional consideration and submit recommendations and supporting materials concerning scholarly and/or creative achievements and contributions to the University and community. A candidate must clearly specify the date (time frame) to which all teaching, scholarly and service materials refer. These must be submitted to the department committee on promotions on or before November 1; nomination of a faculty member for promotional consideration may be made by someone other than the individual.

In cases where a faculty member is nominated for promotion, notice of the nomination must be given to the faculty member. The promotion folder for the individual so nominated shall be processed according to the provisions of this promotion procedure.

Should the faculty member decline the nomination, the declination shall carry no negative or prejudicial connotation in any subsequent personnel action.

The committee is not, however, to consider the absence of such application or nomination as prejudicial to the case of any individual, nor is it to examine, without the individual's consent, any personnel files maintained by the University.

It is the candidate's responsibility to ensure that the application is complete and organized according to the instructions on the Promotion Checklist (rev. 2006) on the date of its submission to the Department Promotion Committee.

MT 9/12/06
WOD 9/12/06

h. Ability to communicate with and motivate students

i. Student evaluations (Brown Form Only)

The department promotion committee shall consider student evaluations of teaching effectiveness, utilizing the approved department questionnaire form. Questionnaires are to be completed by students in class in the absence of the instructor and collected according to department by-laws or past practice. No candidate may collect or process his or her own questionnaires. Such questionnaires shall be distributed before November 10 to each of the classes of the faculty member being considered for promotion. The candidate is required to submit evaluations in every class taught in the same semester (the semester of application [fall] or one of the semesters in the academic year preceding the semester of application).

The same student evaluation forms (Brown) utilized for retention and range adjustments must be used for promotion. Student evaluations of on-line courses must be on forms approved by the department, reviewed by the AFT, approved by the Administration and administered through IRT. No other student evaluation form is to be considered by the department and/or University Promotion Committee. The student evaluations must be kept on file by the department.

j. Classroom observations

Every candidate for promotion shall be observed and evaluated independently by at least three faculty peers. Independent observations of the same course section may be conducted by the faculty peers. Each evaluation report must be signed by the candidate and the faculty peer who conducted the observation within 15 days of the observation. The signing of the evaluation report merely indicates that the candidate has read the evaluation. He or she may write a response to the evaluation, which will be added to his or her file. These observations shall take place during the semester in which the promotion is sought (fall) or in the preceding academic year.

Each member of the committee, upon consideration of the results of all observations and the questionnaires, shall decide whether the criteria for effective teaching have been satisfied. Any candidate who refuses to be observed by the faculty promotion committee removes himself or herself from consideration for promotion at the departmental level.

k. Refer to the "Expanded Criteria List (Career Development Program Scope of Assessment"- Attachment I and the "Faculty Retention and Promotion Clarified Criteria"- Appendix III for additional information.

2. Scholarly achievements

Scholarly achievements shall be measured by the academic background and professional growth of the individual.

9/12/06
9/12/06

In evaluating the academic background of an individual, the following areas should be considered: The attainment of academic and professional degrees, pre-doctoral and post-doctoral fellowships won, scholarships obtained, and academic honors received. Other pertinent attainments must also be considered.

The evaluation of professional growth should include critical consideration of the research, writing, publications exhibits, compositions, or other creative work accomplished by the individual. Professional experience, inside and outside of the academic area, should also be considered. Effective contribution to professional organizations and services rendered to the community, state, national, or international organizations are to be considered, along with the promise the faculty member has for continued professional growth and development.

Refer to the "Expanded Criteria List" (Career Development Program Scope of Assessment- Attachment I and the "Faculty Retention and Promotion Clarified Criteria"- Appendix III for additional information.

3. Contributions to University and community

Contributions to the University shall include such things as faculty and University committee service, grants, symposia, exhibits, student club advisement, etc. Contributions to the community shall include individual contributions and representation of the University at community organizations.

Faculty members with non-teaching assignments should follow similar procedures for reporting absences to the appropriate administrative officer.

- f. The instructor should meet his or her class for the full time allotted. He or she should start and release his or her class at the time specified, with due exception for illness and other exceptional situations.
- g. If a staff member must be absent from an extension class for which he or she is receiving extra compensation, he or she is expected to arrange for a substitute and to assume all expenses involved.
- h. Every faculty member shall be available to confer with students, in his or her classes or during his or her office hours, concerning their progress, and, where applicable, with his or her advisers concerning their programs. Office hours shall be posted and announced to the students. D. Procedure for department promotion committee (including timetable)

1. All individual faculty members with academic rank may submit application for promotion together with written substantiation to the claim for promotion no later than November 1. Applications should be submitted to the appropriate department chairperson or department committee. Nomination of a faculty member for promotional consideration may be made by other than the individual.

6. By November 21, all department recommendations for promotion, together with a written statement and supporting materials justifying each such recommendation, are to be sent to the University Promotion Committee. A majority vote determines the nature of the recommendation. All members of the committee and the candidate must sign the recommendation as acknowledgement of their review.
